

TELECOM SERVICES FOR EVENTS

You organize an event? The Internet connection is crucial for your attendees? We have a solution for you, which can accommodate the needs of **up to 15 000** participants.

These services are available without a long-term subscription and are tailored to the specific requirements of your event and client preference.

Our team of experts is ready to assist you and guide you through the process of selecting the most appropriate technical solution and its implementation.

Neterra has **nearly 25 years** of experience in providing professional telecommunications solutions worldwide.

Some of the recent bigger projects, implemented by the company, include:

- "European Presidency of Bulgaria 2018"⁽¹⁾,
- "European Capital of Culture 2019"^(4, 5),
- "Cyber Protection Developers Conference 2019"⁽²⁾ and "Webit 2019"⁽³⁾, where the company demonstrated **the fastest Wi-Fi network** for more than 14 000 attendees.

Bulgarian Presidency of the Council of the European Union
